

APPLICATION GUIDE

STRUCTURAL ENGINEERING CIVIL ENGINEERING

LEAD CONSULTANT EXPERIENCE

We are experienced in design leadership where we coordinate the whole design process and manage other consultants to create the best possible outcome.

A PROVEN TRACK RECORD

Engenium has a proven track record designing buildings that are out of the ordinary and require expert design. Our numerous awards are testament to this.

VALUE DRIVEN DESIGN

We are frequently involved in value driven projects and due to our innovative design and construction systems we consistently deliver exceptional structures.

A FANTASTIC WORKING ENVIRONMENT

We provide a fulfilling working environment with competitive salaries and regular performance reviews. You will be supported from day one with hands-on experience.

GRADUATE AND INTERNSHIP RECRUITMENT OPPORTUNITIES

APPLYING FOR A POSITION

Engenium is currently seeking graduate engineers and summer interns to join their team at their Christchurch and Tauranga locations.

TO APPLY FOR A POSITION

Send your CV, covering letter and transcript

WHO ARE WE?

Engenium is an exciting consulting engineering firm that specialises in civil and structural engineering for building project design throughout New Zealand across a range of building types from commercial and industrial buildings to stadiums to schools.

Our clients cover a broad array of backgrounds, including leading developers, national and multi-national companies and both corporate and private building owners.

Engenium has been involved in many aspects of the design of buildings in the past and proven their versatility and innovative style to deliver valued engineered projects.

Engenium designs structures in a variety of sectors, mainly out of precast and insitu concrete and steel structures.

A career with Engenium will allow you to work on some of the most exciting building projects New Zealand has to offer.
